Mahbubul A. Majumder

Associate Professor • Department of Mathematical & Statistical Sciences
Chair • Data Science Graduate Program
238 DSC • University of Nebraska at Omaha • Omaha, NE 68182
(402) 554-2734 • mmajumder@unomaha.edu

Education

- **PhD. in Statistics, Iowa State University** — **Ames, IA**
  Department of Statistics — *2007 – 2013*
- **MA. in Statistics, Ball State University** — **Muncie, IN**
  Department of Mathematical Sciences — *2005 – 2007*
- **BSc. (Honors) and MSc. in Statistics, University of Dhaka** — **Dhaka, Bangladesh**
  Department of Statistics — *1992 – 1998*

Consulting

- 2021 Review the Master of Science in Data Science program in the Rutgers University Camden, NJ
- 2017 Design Experiments to Identify the Effectiveness of Community Development Activities of Abide
- 2016 Develop Data Science Collaboration at Nebraska Applied Research Institute (NARI)
- 2015 Create a Dashboard for Analyzing Bachelor Program Peer Index, Office of Institutional effectiveness, University of Nebraska, Omaha

Visiting Professor

- 2018 Department of Econometrics and Business Statistics (July 4-9), Monash University, Melbourne, Australia

Data Science Workshops

- 2026, Quantitative Literacy and Data Science, University of Nebraska Medical Center, Omaha, NE
- 2025, Quantitative Literacy and Data Science, University of Nebraska Medical Center, Omaha, NE
- 2021, Data Literacy, Kiewit Corporation, Omaha, NE
- 2019, Working With Data and Displaying Data Interactively, U.S. Strategic Command, Omaha, NE
- 2018, Doing Data Science Using Machine Learning Models, First National Bank, Omaha, NE

Awards

- 2018, First Annual Faculty Research Award, Office of Research and Creative Activity, UNO
- 2017, Outstanding Student Engagement Award, Academic and Student Affairs, UNO, Scholarship/Research
- 2012, Vince Sposito award for outstanding potential in stat. computing. Dept. of Statistics, Iowa State Univ.
- 2011, Best Poster Award, The 4th Annual Midwest Stat. Research Colloquium, Univ. of Wisconsin, Madison
- 2010, Student paper award - ASA Computing and Graphics Sections
- 2010, First prize , graphical analysis of recovery data, Design for America contest. (team, Iowa State Univ.)
- 2007, Dean's Citation for Academic Excellence, Ball State University

---

Employment

- **University of Nebraska at Omaha.** **Omaha, NE**
  Associate Professor and Chair, Graduate Program of Data Science *2019 – present*
  Assistant Professor *2013 – 2019*
  - Chair, Data Science graduate program
  - Develop Data Science program in collaboration with business and IS&T colleges
  - Design and teach new data science courses such as Introduction to Data Science and Data Visualization
  - Consult and advise to help data science initiative at Nebraska Applied Research Institute (NARI)
  - Advise students on Data Science community projects
  - Develop infrastructure to handle massive data using Hadoop technologies.
  - Research on big data visualization.
  - Collaborate with other researchers in data analysis and visualization.
  - Teach graduate and undergraduate statistics and data science courses.
  - Advise graduate and undergraduate students
  - Provide various services through different committees around the campus
- **Iowa State University.** **Ames, IA**
  Graduate Assistant *2007 – 2013*
  - Develop visual statistical inference procedure based on statistical graphics using R.
  - Conduct survey on human perception about statistical plots.
  - Develop web application to obtain feedback data on visual inference using HTML, MySQL and PHP
  - Research for Hy-vee, analyzed mixture models for sales data using R and SQL.
  - Consultant, analysis of continuous/categorical/repeated measured data using SAS and R.
  - Teaching assistant for business statistics and introductory statistics courses.

- Generate visualization of large Gene sequence data (Soybean genome), Department of Agronomy

- **Novartis Pharmaceuticals Corporation** **East Hanover, NJ**
  Modeling and Simulation group, Summer Intern *5/2011 - 8/2011*
  - Data mining on large database, General Electric - Electronic Medical Record (GE-EMR) using R, SQL
  - Develop and validate heart failure and cardiovascular risk engines.
  - Generate exploratory report, visualization of the data and develop statistical models for the analysis and assessment of data collected over multiple cardiovascular studies.

- **Hy-Vee, Inc.** **Des Moines, IA**
  Statistical Consultant, Summer Intern *6/2010 - 8/2010*
  - Analyzed time series models for sales data to understand the sales pattern over time.
  - Implemented generalized linear models (GLM) to predict sales and forecast demand for hot-deal item.
  - Produced Nutritional Value (NuVal) reports based on categorical grocery data analysis using R, SQL.

- **Ball State University.** **Muncie, IN**
  Graduate Assistant *2005 – 2007*
  - Developed methods to estimate parameters of Turkey's gh distribution using Mathematica.
  - Teaching Assistant and LAB TA for various courses.

- **St. Paul Travelers.** **Hartford, CT**
  Research Assistant *2006 – 2007*
  - Research for St. Paul Travelers to predict severity of accidents.
  - Analyzed generalized linear model (GLM) for St. Paul Travelers using SAS macro/SQL.

- **Sonali Bank and The Premier Bank Limited.** **Dhaka, Bangladesh**
  Senior and Executive Officer (*Head, Information Technology*) *1998 – 2005*
  - Managed IT division of 10 full-time employees to support 13 divisions and 21 branches.
  - Provided IT solutions such as online banking, credit cards, secure intranet & email services.
  - Allocated resources and tasking and organized training for improvement of IT manpower.
  - Experienced in C++, VB6, SQL, MS Access, MySQL, PHP, HTML, Apache & Excel in various projects.
  - Designed and developed corporate web site and application software for HR.
  - Supervised 15 new branch opening issues related to information technology.
  - Performed statistical analysis with transactional data and modeled credit risk.

Core Technical Skills

Languages: R, SAS macro, JavaScript, D3, PHP, HTML, MySQL
Big data tools: Hadoop, Pig, Hive, Impala
Statistics: Visual Statistical Inference, Exploratory data analysis and statistical modeling, Visualizing large data, data mining
Analysis data: Reshaping raw data for statistical analysis, exploring missing data, assessing data quality, extracting data from various sources such as web or data bases.
